Subject: Getting the attention of Former President Barack Obama ----

MS. Jennifer Brehme,

You have the following valid and active reporting location on the web.

<http://jennifer-anne-brehme.fuckeduphuman.net>

----[That is a fact --- You can't change that fact by your silence]-----

Performing a "general name" google search your name

Search [Jennifer Brehme] --- receives the attached search results.

Is this really where you want to leave this --- -what exactly are you hiding that you would allow yourself to be placed onto the web like this without making a need to come to a forum and reconcile the conflict that you all have been in for decades.

What is so so damn ugly that you can't speak that truth, that you have the shut your tight lips --- because perhaps something so illegal that you are having to stay silent as though being protected by the 5th Amendment --- what is so so fucked up human ugly that you will stand there and allow yourself to be cast in this lie --- year after year after year after year after year after year and year and not be able to do anything about it --- for it is not liable

when it represents [which it does] the full and complete truth.

When it comes to your kids [if you have any], how are you going to explain that you were a part of hate hive collective that was hurting a segment of the HIV community that you were supposed to be serving?

When your children come across the business card addendum image on the web --- what lie are you going to have to tell them --- that the content on the web is permanent because what is said of you is true --- and still you could not act --- in the best interest of compassion -- best interest of humanity --- best interest of GOD.

What will it take for you to respond a response of responsibility --- when all hells bells -- you are caught with information theory and this is not in any kind of was harassing --- what it represents is your extreme collapse --- to come to terms with your day of reckoning ---

Psychology Today: Four Types Of Grief Nobody Told You About.

I do have stats use for these shortcuts if I go into my weblog. These appear as hit links -- - but you will fail to see your own path to salvation -- -and you will have to lie to your family, friends, and children --- unless you are actually proud of what you have done --- proud to say it --- but not say it -- keep a secret shunded.. Really? Logically --- you are in binding you can't get out of --- tied until you come to rational sense and turn the tide and be honest. Can you do that?

If so, call me ---909 882 8759 - arrange for you to stop by my place --- apologies in person --- and I will release the hold you have --- even if we are not able to negotiate any further of a relationship purpose beyond that --- but there is way-way beyond that...

Ms. Brehme: I do not know what it will take for you to respond a response of responsibility. This web presence is holding a binding. You are in a different paradigm here understanding perhaps to conclude that you would not want to remain public visable in this attention getting light for an extended duration. What appears to be a business card is sourced from your actual therapist licence site. The source image is quickly found by google images search using your name. Further does not have a copyright affixed which means it is public domain usaable. I choose to take advantage of that status. For anyone to perform an image search of your name, it might be noticed there are other images in the return results displayed to the public interest of these circumstances documented by this networking web presence. This places a binding on to this casting that you as the subject of this web presence would not just ignore this!! It seems strange or a skew from any kind of normalcy that such exposure creates affixed to your name. Some might make the obvious conclusion that you are a bit [or a boast] irresponsible somehow to hold this web presence status in the first place. Further dyamically applied that would be for an extended period of time would be conclusive that you can't find yourself to right a wrong that you are involved in somehow. Even if that would be to make a domain query "content removal request". This web presence is demanding your accountability response upon matters which you internally know. These matters are too important of a contentious state life and death health related matters of a community to leave in silence holding an "intractable conflict" status. #ConspiracyExposedTerminatesASAP

Words To Live By

Art thou dejected?
Is thy mind o'ercast?
To chase thy gloom,
Go fix some weighty truth;
Chain down some passion; do some generous good;
Teach Ignorance to see, or Grief to smile;
Correct thy friend; befriend thy greatest foe;
Be just in all things; make amends
For follies past, and, with warm heart,
Forgive, and be forgiven. Let work not words
Thy virtue prove. Go act as well as prate,
And then thy counsels will be strong,
Thy reprimands avail. —ANON

THE province of the historian is to gather the threads of the past ere they elude forever his grasp and weave them into a harmonious web to which the art preservative may give immortality. Therefore he who would rescue from fast gathering oblivion the deeds of a community and send them on to futurity in an imperishable record should deliver a plain unvarnished tale.
